AUTOCOMPLEX 2010

The 17th Moscow International Exhibition AUTOCOMPLEX 2010 (Autofilling Complex, Autoservice, Garage & Parking) is one of the most important and largest exhibitions for this industry sector in Eastern Europe. The trade fair will take place from 27th until 29th October 2010 at the EXPOCENTRE Fairgrounds in Moscow. The organizer is ACS-EXPO, Ltd., supported by the Moscow Government and the Russian Fuel Union.

At the **AUTOCOMPLEX** exhibition Russian and foreign companies are presenting the whole range of new technologies and services around **petrol stations, car accessories, car maintenance, garages and parking systems**. The exhibiting companies present a wide range of technological innovation highlights. The main product groups presented at the trade fair are the following:

- Petroleum and gas companies, wholesale suppliers of oil products and gas;
- Petroleum storage depots and gas terminals;
- Transport and logistic solutions for petroleum and gas;
- Filling station complexes (filling stations) and filling station equipment, petroleum products;
- Alternative fuel vehicles;
- Vehicle services;
- Car wash units, washing stations;
- Garages and parking;
- Protection of the environment;
- Control and payment systems;
- Shop sales and catering;
- Advertising and promotional technologies;
- Protection and monitoring systems;
- Insurance and financing;
