

## European Biodiesel 2012

**ACI's European Biodiesel Conference, the first annual European conference dedicated entirely to the biodiesel industry , is now in its fifth year. Taking place on 13-14 June in Krakow, Poland, European Biodiesel 2012 will also include a site visit to Lotos Biopaliwa's Czechowice-Dziedzice during the afternoon of Tuesday 12 June 2012.**

### Key topics:

- Policy on biofuels in the EU: Current status & shaping the future
- National implementation of EU biofuels policy
- Key biodiesel industry dynamics: A global perspective
- Adapting to change: How is the European biodiesel producer facing the challenge
- Diesel demand outlook for Europe? Implications for the biodiesel industry
- Most recent findings & recommendations on GHG emissions & ILUC
- Cutting-edge scientific developments in the production of renewable diesel
- Sustainable feedstocks for biodiesel production: Current & future options
- Low carbon transport strategy for sea, land & air: Projected role of biodiesel & bio jet fuel
