

## Future World Of Biogas: Europe 2012

### Unlocking the Future Potential for European Biogas Project Development

ACI's **Future World of Biogas: Europe 2012** is the most up-to-date platform and meeting place for all companies along the entire value chain within the biogas industry to meet and discuss the latest prospects and challenges facing the industry. Hear from industry leaders on the latest developments and processes making an impact and driving this future energy potential.

The event will be looking into the future potential for European biogas production and the markets that are available for the implementation of biogas into the industry. The program will look ahead into the new and upcoming technologies used for production and the upgrading of biogas for various industry applications as well as an array of important areas of discussion for the development of the industry
