

## Insight NACS Future of International Convenience & Petroleum Retailing 2013

**This event will bring the industry together and offers convenience retailers and suppliers from around the world a unique look into best practice in the advanced European market, as well as providing a glimpse of the future with international best practice.**

The Insight programme combines presentations, Retail Vision videos, interviews and hosted store visits to the most innovative retail and petroleum formats. It also includes the Insight NACS International Convenience Retailer of the Year Award.

The organisers have some exciting new plans around the theme of "stores of the future". To assist this, through the year they will be capturing Retail Vision TV footage of the most futuristic convenience and petroleum sites around the world and bringing it all together for conference attendees to showcase the 'best of the best'. If you'd like to get involved in this process over the next 10 months please do get in touch with the event organisers Insight Research & Conferences.
