

## AMITEC 2014

**Trade fair for vehicle components, workshop and service equipment will be held in Leipzig for the 16th time.**

The industry's leading manufacturers will display their latest products and innovations for maintenance and repair of passenger cars, commercial vehicles and all kinds of large-scale mobile equipment from 31 May - 4 June 2014. This makes AMITEC one of central Europe's important industry get-togethers for suppliers, consumers, buyers and other decision-makers.

The trade fair is primarily aimed at specialist visitors, including those from branded and independent automotive firms, spare parts shops and the tyre trade, as well as professionals from car-related service companies. Exhibition programme provides information and additional value in the form of product presentations, practical demonstrations and specialist events.
