

## UNITI expo 2024

**UNITI expo is the leading European trade fair for the retail petroleum and car wash industries. The biennial event, with its programme of seminars and compact three-day format, is specially tailored to the needs of its target audience. UNITI expo provides a unique opportunity for exhibitors and visitors to build and strengthen business relationships with customers and professionals alike.**

After a long break imposed by COVID-19, UNITI expo could celebrate its fourth edition. It took place May 17-19 at the Stuttgart Exhibition Centre.

On 40,000 square meters of exhibition space, UNITI expo offered a unique trade show with an exciting conference program. To guarantee an ideal overview and an efficient trip for visitors, the exhibition was divided into four themed areas **‘Technology, payment & logistics’**, **‘Carwash & carcare’**, **‘Oil companies & fuel retailers’** and **‘Shop & convenience’**. With 431 exhibitors from 37 countries and more than 16,000 participants from 100 countries, the trade show once again offered the perfect platform for service station, carwash and convenience enthusiasts.

The integration of subject-specific forums directly into the exhibition halls was particularly popular with visitors and exhibitors alike. Three forums – International Forum, Carwash Forum and UNITI expo Forum – gave all participants the opportunity to gain interesting and innovative insights in numerous lectures and presentations on the latest trends and issues in the industry.
