

## NACS Insight Convenience Summit - Europe

**Combining the power of two leading industry organizations, NACS and Insight Research are proud to re-imagine the former Future of Convenience conference as the new NACS Insight Convenience Summit - Europe.**

This annual event retains the best of its past, while adding new content, experiences and activities that will benefit attending delegates when they return home to their businesses.

This coming June, convenience and fuel retailing industry professionals from around the world will gather in Paris and London for new knowledge, new commercial connections and networking and the opportunity to discover and discuss new ideas from retail store tours. And, the event will feature the popular International Convenience Retail Awards—now in their sixth year, which recognize and promote convenience retailing excellence.

Thanks to the program's flexible format, delegates can choose to attend the parts of the event that are right for them. As a guide, the Paris program is focused on high level European strategy, trends, economics and store visits to see what is new in French retail for smaller interactive groups. London is the main 'must attend event' for the international industry with retailer roundtables, international best practice presentations on key trends/developments in the global industry, retailer case studies and the well-known International Convenience Awards program.

See the full schedule and register today.
