

Gulf Car Wash - Car Care Expo 2015

The Gulf Car Wash - Car Care Expo will be held November 2-4, 2015 at the Dubai International Exhibition and Convention Centre, giving the region its first carwash industry event. Carwash owners and operators, equipment manufacturers and suppliers from around the world will gather for business and networking opportunities.

The rising number of vehicles in the Middle East makes the area a growing market for the car care industry. Growth means an increased need for carwash and maintenance products and services to meet demand.

"The growing interest in the car washing industry has led to the inception of the Gulf Car Wash - Car Care Expo," shared Jayaraman Nair, Virtual Info Systems Exhibitions & Conferences chairman. "Through this we aim to bring international players from the global car washing industry on one platform."

The event is the region's 1st event totally dedicated to the car washing industry. It will bring together, under one roof, leading car care and car wash owners, operators, care wash equipment manufacturers and suppliers from the regional market and around the world, providing excellent business and networking opportunities for both, the consumers and industry players.

This trade show will showcase the best-in-class car wash and car care products, accessories, technologies and services from diverse segments of the industry, with emphasis on energy and water conservation, in a region that is very much in need of, and is looking for such, environmentally friendly measures.
