

PetroForum 2010 Asia, Middle East and Africa

PetroForum has become the established meeting point in the events calendar for oil company retail engineering & IT teams to meet with petroleum equipment & service providers from across the globe.

Oil company participants span Asia, The Middle East and parts of Africa and include names such as Petronas, Adnoc, Bharat Petroleum, Idemitsu, PTT, Seaoil, Eppco, Pakistan State Oil Co., Emarat & Engen.

This year Petronas will be the headline sponsor. The format of the event means suppliers and oil companies spend unrivalled, quality time with each other through a program of personalised formal meetings & informal networking. We carefully select our delegates to ensure that the right people meet the right people and limit supplier attendance by product & service type.
