

Video review from FFE 2012 in Birmingham, UK

This video is sponsored by Wayne, A GE Energy Business and includes interviews with Wayne, Tokheim and Berry's Technologies.

To get a better idea of the current developments in the UK market, we have also conducted an interesting interview with Merrill Bolton, Forecourt Trader's editor.

A perspective from the retailer's point of view is gained in our interview with Fraser Duffin, General Manager of MRH, the largest independent petroleum retailer in the UK.

A special thank you goes to Wayne for sponsoring this video review.
