

## Hectronic technology at AVIA Xpress petrol stations

Oest Tankstellen GmbH & Co. KG is one of the most important medium-sized oil companies in Germany.

AVIA Oest is banking on modern, unmanned facilities with the recent opening of two Xpress petrol stations. The two petrol stations, one of which is in Stuttgart, the other in Freudenstadt, have been equipped with intelligent tank system solutions from the Hectronic company. Several versions of the HecStar fuelling terminals, which are perfectly tailored to public use, have been installed at the stations. This puts them in the best position to meet the requirements of automobiles and lorries that need refuelling.

Ex-DTM racing driver Ellen Lohr took part in the celebrations in Stuttgart to mark the opening of the new petrol stations.
