

RFA - Renewable Fuels Association

We are the leading trade association for America's ethanol industry, working to advance development, production & use of ethanol as a beneficial renewable fuel.

Since 1981, the Renewable Fuels Association (RFA) has been the authoritative voice of the U.S. ethanol industry. Our members are committed to helping our country become cleaner, safer, and more energy independent. In creating a forum for ethanol producers and industry stakeholders, RFA has achieved an unequalled record of results through action, advocacy and analysis.

With the most experienced staff in the industry, RFA is able to provide timely, comprehensive industry information to our members, Congress, federal and state government agencies, fuel marketers and retailers, strategic partners, the media and other opinion-leader audiences.

RFA has been the industry's most forceful advocate for expanding the market for ethanol. Just as important, we've worked to beat back aggressive challenges to ethanol's progress from special interests seeking to maintain fossil fuel status quo.
