

ceees - Spanish Confederation of Operators of Service Stations

The Confederación Española de Empresarios de Estaciones de Servicio (Spanish Confederation of Operators of Service Stations) is a national non-profit organization founded over forty years ago with the aim of becoming the national meeting institution of all entrepreneurs operating petrol stations in Spain.

Since then it has focused its activities on the representation of its members in various official institutions and national, regional, local and supranational organizations, to promote and encourage the moral and material improvements for this industry sector.
