

EMI - Energy Management Institute

Energy Management Institute (EMI) is the foremost innovative professional services firm providing insight into the energy future.

EMI uses its specialized energy market expertise to bring a wide array of services and products to energy professionals.

- Energy education

Higher Learning for Energy Professionals: EMI delivers hands-on, interactive and exciting programs that set the standard in energy education. Our instructors are not just teachers...they're top industry experts dedicated ensuring our students get the most useful and practical knowledge possible.

- Market data & news

Energy newsletters, database, and real-time content feeds: EMI uses its market expertise to publish business critical indices and newsletters that provide market news and analysis, including purchasing and hedging advice, pricing, and more. EMI publications are trusted by thousands of organizations for daily financial and physical market guidance including key benchmark contracts. Oil, natural gas, power and alternative fuel professionals all utilize our services, which are available online, via satellite, fax or email, and through trusted third party channels.

- Advisory services

Margin Preservation, Hedging, Program Design, Trading & Purchasing: EMI's risk advisory experts are your outsourced risk management team. Using a comprehensive proprietary hedging model, EMI designs and implements risk management programs for our clients with one objective in mind – market preservation. EMI also provides comprehensive portfolio management and trading advisory

services regarding energy contracts.

Our clients and partners are a who's who of energy providers, consumers, and industry leaders. EMI represents over 10,000 customers worldwide: customers who value EMI for our independence, unbiased expert opinion, and in-depth industry experience.
