

Greentank Limited

GREENTANK manufactures CORROSION-RESISTANT Fibreglass Underground Fuel Storage Tanks for the safe containment of petroleum products and hazardous liquids.

Single & Double-Wall Models are available in capacities from 600 litres to 120,000 litres & Multi-Compartment Models are available.

We manufacture in accordance with ASTM D 4021 and UL 1316 ... and our tanks carry a 30-Year Limited Warranty.

A premium "ALL-FUELS" compatible resin system is used to allow for the containment of alcohol fuels as well as petroleum products.

Tank Gauging and Leak Detection Systems are also available.
